## **Pennsylvania Sidewalk Improvements**

Beaumont, CA—Street improvements continue in Beaumont with the installation of one mile of sidewalks on Pennsylvania Avenue.

On March 6, 2018, the Beaumont City Council awarded CT&T Concrete Paving the contract for construction of the Pennsylvania Avenue Sidewalk Improvement Project. The project is funded through a Community Development Block Grant (CDBG) from the U.S Department of Housing and Urban Development and is supported by the County of Riverside Economic Development Agency and 5th District Supervisor Marion Ashley.

The project will include the installation of new sidewalks, driveway aprons, and corner access ramps on the east side (northbound lane) of Pennsylvania Avenue from 8th Street to Oak Valley Parkway. Construction is scheduled to begin in early April and is anticipated to be completed within 45 days. Temporary lane closures and reduced lane widths will be in place during construction hours. The City will be making a concerted effort to minimize disruptions for citizens and businesses in the project area. For project questions, please contact the Public Works Department at 951-769-8520
